

Engineered Solutions for Wastewater Treatment

Ecologix Environmental Systems has engineered and manufactured complete solutions with proven reliability for over a decade, specializing in Industrial and Municipal Wastewater Treatment. Combining innovative technologies with quality engineering standards, we have developed a reputation as problem solvers; delivering turn-key solutions to companies around the world.

Systems	Services	Products	Processes
<ul style="list-style-type: none"> - Biological Treatment - Clarifiers - Controls - Dissolved Air Flotation - Dewatering Evaporators - Membrane Filtration - Microbial Bacteria - Oil/Water Separators - Ozone Pressure Filtration - Screens - Separators/Strainers 	<ul style="list-style-type: none"> - Controls and Instrumentation - Chemical Feed Systems - Maintenance and Repair - Project Management - System Integration - On-site Set Up and Training - Mechanical Engineering - Electrical Engineering - Treatable Lab Services - Civil Engineering - Chemical Engineering - Environmental Engineering 	<ul style="list-style-type: none"> - Activated Carbon - Specialty Chemical - OrganoClay - Bag Filters - Bag Filter Housing - Oil Free Cartridge - Oil Free Cartridge Housing - OdorZorb - Odor Neutralizing Granules - Odor Neutralizing 	<p>Pre-Treatment</p> <ul style="list-style-type: none"> - Above/Below Ground OWS - Screens <p>Primary Treatment</p> <ul style="list-style-type: none"> - Dissolved Air Flotation (V-Series) - Air Charged Entrainment (ACE) - Integrated Treatment System (ITS) <p>Secondary Treatment</p> <ul style="list-style-type: none"> - Portable Treatment Systems (Zeo-Clear) - Modular Treatment Systems (Bio-Clear) - Integrated Bio-Reactor (IBR) - Membrane Bio-Reactor (MBR) - Activated Sludge (AS+) - Anaerobic Digester (AN+) <p>Tertiary Treatment</p> <ul style="list-style-type: none"> - Bag Filters - Multimedia Filters - Reverse Osmosis

Industries Served

- Food & Beverage
- Dairy & Poultry
- Pharmaceutical
- Manufacturing
- Automotive
- Mining
- Municipalities
- Oil and Gas
- Landfill Leachate
- Meat Processing
- Petrochemical
- Superfund Site
